Reports

Shipment tracking and carrier information is added to an Order Request the morning after it is shipped by the distributor (McKesson for refrigerated vaccines and Merck for frozen). The viewer can find this information by:

- 1) Clicking on the View History link in the Menu
- 2) Look for Request Type: *Order*
- 3) Request Status:

Incomplete, Submitted, IZ Hold, Approved, Pending Extract or Pending Shipment = shipment information unavailable

Partial Shipment or Full Shipment = shipment information available

- 4) If shipment information is available, click on the “View” link

| Request Type | Type | Request Status | Created Date | Submitted Date | ExIS Id | View |
|----------------|--------------|----------------|--------------|----------------|----------|----------------------|
| Order | All vaccines | Full Shipment | 5/23/2023 | 5/23/2023 | ORD71885 | View |
| Reconciliation | All vaccines | Completed | 5/23/2023 | 5/23/2023 | | View |

Shipment information is displayed in a separate table organized by order line. It includes lot, expiration, carrier and tracking information.

Can I track my COVID depot order?

Unfortunately, there is currently not a way to track depot orders. Only COVID distributor orders can be tracked.

Depot orders placed before Thursday at 4pm will be delivered the following week. Primary Vaccine Coordinators will receive a confirmation email from the depot team prior to their scheduled delivery.
