

How do I get medicine?

WHAT: Points of Distribution (PODs) will be giving free medication for everyone in the [define area] who may have been exposed to airborne anthrax.

WHO: All residents/visitors in the [define area] should send ONE adult per household to pick up medicine.

WHY: You and your family may have been exposed to anthrax. You must start medication within 48 hours of exposure. You may not show symptoms before you need to take medicine. Anthrax can be deadly if left untreated.

WHERE: [POD location(s)]

WHEN: POD date[s]; The POD will be open 24 hours a day from [Date to date].

INFO: What do I need to know when going to the POD?

- Know if anyone in your household is pregnant or breastfeeding.
- Bring medical information—such as serious medical conditions or allergies—about each member of their household.
- Know the age and weight of children in your household.
