**2. Public Comment:**

None

**3. Approval of Minutes of the July 11, 2012 Board Meetings:**

Dr. Reich moved to accept the minutes of the August 1, 2012 meeting. Ms. Diamond seconded the motion. The motion passed; opposed: none; recused: none; abstained: none.

**4. Board Issues (Dr. King):**

Dr. King went to Texas as the state representative on the USMLE advisory panel. This panel consists of Medical Board members and Executive Directors from across the nation who review, discuss and make recommendations to the physician exams. One topic of discussion at the meeting was addition of testing on professionalism & ethics, including the use of case presentations or vignettes. If anyone wants to be a question writer for the Board, there is a workshop in April on writing questions.

**5. Administrative Update (Mr. Herlihy):**

- 1) The CME Rules were approved by LCAR on September 6, 2012. The only controversy surrounding the proposed rules was associated with the subject-specific requirements. VMS argued that the statute did not require that all licensees have training on hospice, palliative care, and end of life care. They also suggested that the requirement for training on controlled substances should

not be triggered by the licensee having a DEA number, but instead by whether the licensee actually uses the number. Our BMP position was that the rules should be adopted as proposed. LCAR approved the Rules on a split vote and they will be official on October 1.

- 2) Opioid Training 10/2012 at the Equinox Hotel in Manchester, VT. Any members interested in attending may do so. An email invitation will be sent.
- 3) VPHP Advisory Program – committee meeting in September and Mr. Herlihy requested a board member to replace Mr. Webber on the committee. Ms. McClain volunteered to serve on the committee.
- 4) Anticipated Request from the State Epidemiologist – Mr. Herlihy informed members of a pertussis outbreak. There has been a substantial increase in the number of cases in VT in 2012. He stated that he has been asked to attend a planning meeting on how VDH will respond. Topics to be discussed include prophylactic prescription of antibiotic to people who have been exposed to pertussis. There is a provision in the law that physicians can prescribe for a partner of a patient when the patient has been diagnosed with Chlamydia, and Mr. Herlihy has been informed that Public Health officials are considering something similar for pertussis. The Board may be asked to adopt a policy/guidelines that address concerns about prescribing by a provider for an individual who is not the provider's patient and who has not been examined by the physician. This is only advance notice that the Department of Health may propose such a policy.
- 5) Renewal has begun and while the system has had a few minor issues, all appears to be going well. Provider members were encouraged to let staff know how things are from the user perspective and to listen for comments from colleagues.
- 6) Consideration of New Staff at the Board – Mr. Herlihy stated that he is considering the need to hire another full time investigator and to create a position for the Kelly Temp, who has been assisting with licensing and scanning of licensing documents since 2011.
- 7) Central Meeting moved to morning for September 14 – 9:00 am and breakfast will be served.

No updates yet on replacement for Eileen Illuzzi, who has submitted a resignation that provides for her to continue serving until such time as she is replaced.

#### **6. Presentation of Applications (12:30 p.m. – 12:45p.m.):**

Applications for physician licensure and physician assistant certification were presented and acted upon as detailed in Appendix A, incorporated by reference into these minutes.

**7. Presentation to the Board (12:45p.m. – 1:45 p.m.):**

**HISN: Homeland Security Information Sharing Network:** Mr. Herlihy & Ms. LaFond demonstrated the test site created for the Board on HSIN, which is a highly secure, web-based information sharing platform to discuss with the Board members for consideration as a way to go paperless. Staff is investigating devices such as iPads or notebook computers that would be purchased and made available to members – for security, work on Board documents would be done exclusively on such devices and the devices would be only for Board work. Mr. Herlihy discussed the cost advantages of electronic distribution, which include postage, copying, and shredding savings, as well as a reduction in work for the staff who prepare mailings. Electronic distribution would allow for documents to be shared right up until the day of a meeting. Electronic distribution is also more secure, in that records are not copied and mailed so much and there is ability to track when information is accessed, although in some respects information that is held electronically can be more easily and quickly spread if compromised. Overall, the Board staff recommends working toward making electronic distribution available to members. He assured members who might not be comfortable with electronic distribution that they could opt to continue to receive some or all materials in hard copy. Mr. Herlihy stated that in order to move forward with vetting this through the state approval process, the Board would need to make a motion in support of the HSIN system. Dr. Hayward made a motion in support of pursuing the electronic distribution of Board materials using the HSIN web portal, including pursuit of VDH/AHS and whatever IT approvals are required. Dr. Rinaldi seconded the motion. The motion passed; opposed: none; abstained: none; recused: none. Several members expressed enthusiastic support for electronic distribution.
