

## CAPABILITY OF UNIT - CLARIFICATION!

I have changed the wording of the “**Primary Role of Unit**” question on the Response tab to “**Capability of Unit**” to be more clear about what this question is asking. You will also see that the options have changed to:

**Ambulance (ALS)**

**Ambulance (BLS)**

**First Response**

**Critical Care Ambulance**

**Medic Intercept**

**Call Turn Over – Administrative.**

Capability of Unit:

Ambulance (ALS)	Ambulance (BLS)	First Response
Critical Care Ambulance	Medic Intercept	Call Turn Over - Administrative

If you are an **ambulance** agency, you will ALWAYS choose either “Ambulance (ALS)” or “Ambulance (BLS)” as the “Capability of Unit.”

If you are a **first response** agency, you will ALWAYS choose “First Response.”

**The only exception** is for mutual aid calls or calls that your agency is toned out to, but that no one is able to respond to. If you record these calls that your agency was toned to but could not respond to, select **Call Turn Over – Administrative**.
