Quick Hospital Hub User Guide

- To log on to Hospital Hub, go to www.sirenems.com/hub

This is the "Hospital Hub" view.

Selecting "Incoming" will only show you the most recent incidents that were transported to your hospital

You can add outcome information about the patient, which will be sent back to the EMS agency who transported them.

80%	Chest Pain/Discomfort	My chest hurts	SB14-0074	05/27/2014 12:08	ImageTrend Fire Department (DO...	01/15/1983		

Every incident that is transported to your hospital will show up in this list.

This is the validity score for the incident. It is a measure of completeness.

Clicking this allows you to see any attachments that are sent along with the EMS incident.

Clicking this allows you to print the EMS Run Form.
