Veggie came in because she delivered her new baby, Asterix.

We are in the PREGNANCY screen where we update her file by adding the delivery date and weight gain for the new baby.

Next we'll go to the Family page to add the baby to the Household.

Back Finish

He's not already in the system, so the enrollment screen pops up.

We now identify his race, and that his Mom is Veggie Tester. This links the two.

I still need to indicate that Asterix is breastfeeding. To do that, we will go to the Nutrition Interview screen for Asterix.

**Nutrition Practices (Breastfeeding)**

1a. Tell me how it is feeding Asterix.  
Listen, ask, and assess for

- Hunger and satiety cues
- Number of wet/dirty diapers
- Appetite changes
- Constipation or diarrhea
- Vomiting
- Breastfeeding or formula

1b. What challenges are you having?  
Listen, ask, and assess for

- Frequency
- Difficulty latching on/positioning
- Weak/ineffective suck

Starters/Prompts  
Tell me about how you are feeding your baby.  
How often does your baby eat and how long do the feedings last?

System Messages Family Alerts

Error Code	Description
10035	No data has been entered into the interview.
9001	Breastfeeding description is a required field.
9001	Has your baby received anything besides breast milk is a required field.

Prompts appear to guide us through the assessment of how the breastfeeding is going.

Note that we can also link Veggie with a Peer Counselor and record any BF equipment she is send home with.

**We'll have more examples from the MPSC MIS System  
in the coming weeks!**
