

# Current Marijuana Use and Other Risk Behaviors: Report for Windsor County 2015 Vermont Youth Risk Behavior Survey

## Marijuana Use Among Vermont and Windsor County High School Students

Overall, 37% of Vermont high school students reported ever using marijuana in 2015. In the last 30 days, 22% of students reported marijuana use.

Students in Windsor County were significantly more likely than students across the state to have ever used marijuana or to try it by the time they graduate. Overall, 40% of Windsor County high school students reported ever using marijuana in 2015. In the last 30 days, 24% of Windsor County students reported marijuana use.

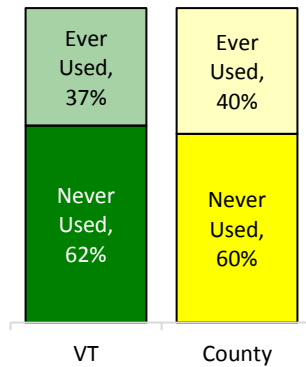

Among Windsor County students using marijuana in the past 30 days, 28% reported rarely using it (1-2 times), 38% used it occasionally (3-19 times), and 34% reported frequent use (20+ times). There were no differences in frequent or rare use compared to the state average.

Following are a series of tables looking at protective factors (e.g., believing they matter to people in their community) and risk behaviors (e.g., substance use) by frequency of marijuana use, among current users. Thus, among students who use marijuana X times per month, the percent who also experienced Y.

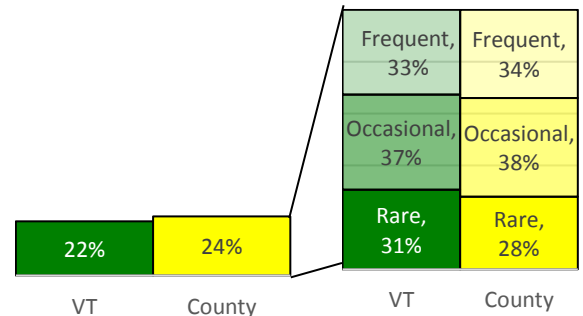

## Family and Community Engagement

As marijuana use increases, perceptions about ones' school and community, after school involvement and average grades earned tend to decrease.

## Marijuana Use Among High School Students

## Frequency of Marijuana Use, Past 30 days

	Marijuana Use Frequency	Vermont	Windsor County	Comparison to VT
Believe they matter to people in their community	Rare Use	47%	48%	No difference
	Occasional Use	43%	38%	No difference
	Frequent Use	35%	33%	No difference
Believe teachers really care about them	Rare Use	54%	57%	No difference
	Occasional Use	51%	46%	No difference
	Frequent Use	44%	42%	No difference
Talked to their parents about school at least 1x / week	Rare Use	75%	73%	No difference
	Occasional Use	69%	69%	No difference
	Frequent Use	63%	65%	No difference
Earned mostly A's and B's	Rare Use	76%	80%	No difference
	Occasional Use	69%	66%	No difference
	Frequent Use	55%	53%	No difference
Participated in extracurricular activities for 10 or more hours / week	Rare Use	25%	26%	No difference
	Occasional Use	20%	21%	No difference
	Frequent Use	16%	18%	No difference

## Perceptions of Marijuana Use and Associations with Other Substance Use

Overall, as marijuana use increases, student perceptions of marijuana use as wrong or risky decreases. Use of other substances also increases as marijuana use increases.

	Marijuana Use Frequency	Vermont	Windsor County	Comparison to VT
Believe it is wrong or very wrong for someone their age to use marijuana regularly	Rare Use	15%	9%	No difference
	Occasional Use	8%	7%	No difference
	Frequent Use	5%	6%	No difference
Believe their parents would think it is wrong or very wrong to use marijuana regularly	Rare Use	66%	67%	No difference
	Occasional Use	53%	55%	No difference
	Frequent Use	30%	31%	No difference
Ever misused a prescription drug	Rare Use	17%	16%	No difference
	Occasional Use	29%	25%	No difference
	Frequent Use	54%	57%	No difference
Used marijuana before age 13	Rare Use	8%	8%	No difference
	Occasional Use	18%	16%	No difference
	Frequent Use	43%	39%	No difference
Smoked cigarettes before age 13	Rare Use	8%	7%	No difference
	Occasional Use	14%	15%	No difference
	Frequent Use	32%	31%	No difference
Drank 5+ drinks in a row, past 30 days	Rare Use	36%	37%	No difference
	Occasional Use	50%	51%	No difference
	Frequent Use	62%	61%	No difference
Used any tobacco past 30 days	Rare Use	47%	54%	No difference
	Occasional Use	69%	69%	No difference
	Frequent Use	83%	87%	No difference

## Associations with Mental Health and Other Risk Behaviors

As frequency of recent marijuana use increases, indicators of suicidality, feelings of hopelessness and other risk behaviors increase.

	Marijuana Use Frequency	Vermont	Windsor County	Comparison to VT
Felt sad or hopeless for 2+ weeks, past year	Rare Use	33%	34%	No difference
	Occasional Use	36%	42%	No difference
	Frequent Use	42%	41%	No difference
Attempted suicide, past year	Rare Use	9%	10%	No difference
	Occasional Use	12%	10%	No difference
	Frequent Use	20%	18%	No difference
Had sex with 4+ people, ever	Rare Use	16%	14%	No difference
	Occasional Use	24%	19%	No difference
	Frequent Use	47%	47%	No difference
Bullied someone, past 30 days	Rare Use	15%	17%	No difference
	Occasional Use	21%	22%	No difference
	Frequent Use	28%	31%	No difference

<sup>2</sup> **Interpreting the Data:** These tables demonstrate the association between marijuana use and other behaviors. It is important to remember that YRBS data does not indicate causality. Thus, we cannot say that marijuana use causes a student to use other substances or experience other risky behaviors, only that there is a correlation between frequency of marijuana use and these behaviors and perceptions. **NA** Too few students
