Table 2A - Hospital Pricing of Top 2022 Outpatient Procedures - Gross Charges

These are hospital gross charges only. Physician charges are NOT included. Charges displayed include each community hospital's top outpatient surgical procedures by volume for the period of 10/1/2021 to 9/30/2022. Because each patient receives treatment based on their individual needs, the gross charge to each patient will vary. Hospital System Number of Cases and Average Gross Charges include all hospitals. For individual hospitals, charges for procedures having fewer than 15 cases are not shown. Blanks in the table indicate that the hospital has fewer than 15 cases for that procedure or the hospital does not perform that procedure. The hospital, however, may perform a similar procedure under a different code which may not be shown. Please call the hospital for more information. Note: the surgical cases shown include some anesthetic procedures for the treatment of pain not connected with surgery.

¹ Based on "Current Procedural Terminology" (CPT) codes that define outpatient procedures for the period October 1, 2020 through September 30, 2021. "Clinical Classification System" (CCS) groups similar CPT codes, such as all those affecting a given organ system of the body.
² System Number of Cases includes the number of cases for all hospitals with charges. Records with zero charges are not included.
³ System Average Gross Charge is an average based on all hospital cases with charges.
