# Module 1 - Xylazine in the Era of Synthetic Street Drugs

July 17th at 6:30pm

This 1.5-hour virtual training will provide an overview of Xylazine, including information on its emergence in the local drug supply and its effect on persons who use drugs (PWUD). This includes an emphasis on the unique impact of Xylazine as it pertains to overdose risk, overdose response, and the development of soft skin tissue infections. Participants will have the opportunity to engage with an expert regarding emerging developments in your community.

Training to be provided by Fernando Montero

# Module 2 - Wound Care Education

**July 31st at 6:30pm**

This 1.5-hour virtual training will provide an opportunity to further your knowledge and experience regarding wound care intervention for persons who use drugs (PWUD). This includes an overview of best practices for screening and identifying wounds, as well as best practices for basic wound care intervention that could be administered by non-medically trained personnel in the context of routine outreach. Participants will have the opportunity to engage with experts on emerging developments in the community.

Training to be provided by Jason Bienert.

# Module 3 - Wound Care Outreach: Brief Negotiated Interview Guided by Motivational Interviewing

**August 14th at 6:30pm**

This 1.5-hour virtual training participants will be able to practice skills and knowledge of Motivational Interviewing and develop skills on Brief Negotiated Interview to connect participants with medical services. As a population that is often not comfortable with traditional hospital settings, this training will enhance engagement with life-saving services. .

Training to be provided by Stephanie Rozen.

# Module 4 - Additional Resources and Strategies

**August 28th at 6:30pm**

After learning various elements of the emergence of wounds from xylazine adulterating the drug supply, the wound care assessment and treatment, and helpful tips to engage folks in direct medical care; this 1.5-hour virtual training module will allow folks to look within themselves and their organization to best build capacity to engage with participants. This module will also touch on various levels of harm reduction techniques that can be used in the field or in their community-based organizations.

Training to be provided by Michael Chaple.

# Compassion Fatigue Is Real - Acting to Manage & Prevent

**September 10th at 6:30pm**

This 1.5-hour interactive learning community conversation defines, and reviews the consequences of unacknowledged compassion fatigue. Participants will explore personal signs and symptoms and also discuss actions that can be taken to protect effective service delivery. Barriers to management and prevention will also be considered.

Training to be provided by Paul Warren.
